

To keep our community members and riders safe,  
here's what to know about

# TOY VEHICLES & BEYOND!

Mini-bikes are **NOT AUTHORIZED**  
for use on public routes. They do  
not meet the specifications for  
vehicles that can **SAFELY** operate on  
public roads or paths.

You can **ONLY** ride these on your  
private property.

**IF it has a VIN**, it is considered a  
vehicle, must be registered, and is  
subject to state vehicle laws.  
You have to have a driver's license  
and insurance to drive it.

**FOCUS ON SAFETY FOR ALL**  
and stick to the rules of the road.

**E-bikes** have WORKING PEDALS, and are different than mini-bikes, toy vehicles, low-powered scooters, or motorcycles.
